

ABOUT US

Calvary Counseling Center is a state licensed, multi-disciplinary, behavioral health care center that offers out-patient psychological services. We are committed to providing quality outpatient service with dignity and compassion. Our priority is to offer client – centered confidential, individual care to meet the needs of our clients and their family. Our programs are evidence based, providing individual counseling and a wide array of education services and treatment groups. Our Alcohol and Drug Services have been designed to treat those struggling with the disease of addiction.

Create a lifestyle that supports continuing recovery

PROGRAMS AVAILABLE

D.A.P. (Drug Awareness Program)

When a member of the family suffers from addiction the whole family is affected. It can be difficult to care for an alcoholic or chemically dependent loved one without experiencing emotional pain. Calvary Counseling Center offers psycho-educational support services for family members with chemically addicted loved ones. We are convinced that family treatment is essential for total recovery; therefore, family members are involved in all of our outpatient programs.

S.A.P. (Substance Abuse Program)

Our outpatient programs help individuals to focus and become motivated to stop using drugs or alcohol. Individual therapy is offered to help individuals better understand their problems, establish coping mechanisms and improve quality of life through behavioral changes. Once treatment goals are met, aftercare for continued success in remaining drug and alcohol free is offered.

Common goals include:

- Repair damaged relationships with loved ones
- Establish new friendships with non-abusers
- Maintain employment and develop good work habits
- Create healthy lifestyle

A comprehensive list of available programs can be found on our website:
